

Logging Into Citrix from Your Facility

Logging In:

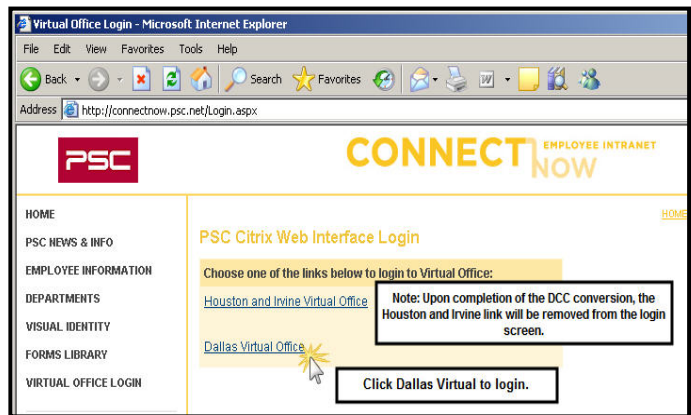

To log into the Dallas Citrix Virtual Office (VO) environment:

1. Turn on your workstation. The PSC intranet page appears.

NOTE: If the PSC intranet page does not appear automatically, open your Internet Explorer, type **login** into the address bar and press Enter.

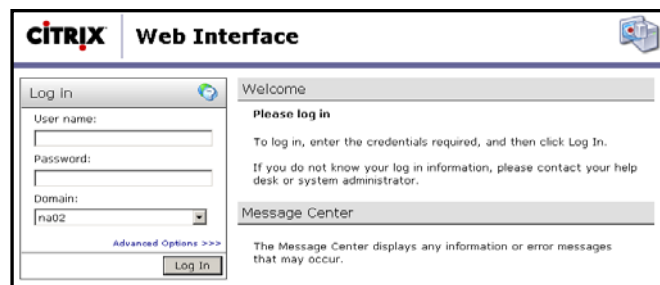

2. Click **Virtual Office Login**. The PSC Citrix Web Interface Login page appears.

3. Click **Dallas Virtual Office**. The Citrix Welcome page appears.

4. Enter your **User Name** (this is the same as your Network ID) and **Password** and then click **Log In**. The Citrix Welcome page reappears with your **PSC Applications** displayed.

5. To access a PSC application, click on the desired icon in the Applications section.

Note: Depending on your login permissions, you may see different folders.
