

Providing Tomorrow's Solutions Today.™

PSC INDUSTRIAL SERVICES

Delivering Smarter Solutions for Peak Performance

You expect a lot from your service providers.

- A safety culture - maintaining an incident-free work environment
- A partner accountable to your budget and cost-cutting goals
- A single source for critical support services, so you can concentrate on your core business

As an experienced service provider, PSC has the equipment, personnel and knowledge base to understand your process point of view.

Valued Partnership with PSC

PSC goes above and beyond so you can meet and exceed your operational goals. We offer customized solutions, the industry's best equipment, innovative technologies and extensive nationwide service—always with a commitment to safety and the environment. We deliver consistent results all the time, every time.

We're the Smart Choice to—

- Extend your equipment life, improve mechanical efficiency and more with a multitude of customized, highly economical cleaning methodologies

- Lower your tank inspection and repair costs
- Reduce waste and costs; recover valuable products; and mitigate future liability through our innovative thermal desorption technology
- Keep your onshore and offshore oilfield operations clean and compliant with our strategically located facilities and expert personnel
- Develop comprehensive, cost-effective solutions to address your worst site closure scenarios—from former manufactured gas plants (MGPs) to landfills, refineries, power plants and rail yards. All this with our skilled engineers and scientists.

Let us handle

- Chemical Cleaning
- Environmental Management Programs
- Explosive Deslagging
- Grit Blasting
- Hydroblasting
- Oilfield Services
- Tank Cleaning
- Waste Minimization
- Plus Much More

The PSC Advantage

Our clients gain access to a vast network of locations that offer virtually every industrial service, eliminate the administrative hassles of scheduling and managing multiple contractors, reduce costs, save time and improve productivity. We do it all.

Superior Technology, Supreme Innovation

PSC is relentless in bringing next-generation practices, systems and equipment to meet your most complex challenges. Our proprietary technologies give you up-to-the-moment information, reporting and assurance. Plus, the advanced field operations systems we use reduce costs, improve accuracy and accountability, while enforcing best practices.

Put PSC on Your Team

With exclusive game-changing technologies, a highly responsive and credentialed workforce, plus national breadth and local attention, PSC does more than just clean. Let us show you how.
