

Providing Tomorrow's Solutions Today.™

BOILER OUTAGE OVERVIEW

Superior Performance Under Pressure

Whether taking your boiler offline for maintenance or tackling an emergency, the objectives are clear. Make the boiler safe for entry, clean it effectively, inspect and repair, return to service. And all within your prescribed timeline.

So don't commit your critical outage services to just anyone.

Entrust Your Boiler to the Best: PSC

PSC is your best choice for boiler outage services because we do more than just come in and clean. We "own" the project from start to finish, employing the industry's finest methods and advanced field management tools to restore your boiler to near-new specifications.

A Unique Suite of Services

At PSC, we know that different situations demand different solutions. That's why we're one of the few firms offering a full spectrum of services, from media gritblasting and explosives to chemical cleaning and more. We always use the best method for your situation—plain and simple.

"As a buyer for Detroit Edison, I find PSC to be a business partner that not only provides new ideas on how my company can work safer and smarter, but also provides the most cost effective cleaning services for our plants."

Sharon Phelps
Buyer, Contract Labor & Services

Critical Path Performance

Whether scheduled maintenance or a tube leak, PSC uses a critical path approach to each project communicating cost and schedule performance on a daily basis. Bottom line: you'll be able to enter your boiler, perform your repairs or maintenance and get back on-line fast.

5151 San Felipe,
