

Providing Tomorrow's Solutions Today.™

MAILBACK RECYCLING SERVICES

## Rid your business of bulbs, batteries and headaches!

*No matter how large or small your enterprise, the government has strict guidelines for disposing of common consumables like batteries and fluorescent bulbs. You can't just throw them out. How do you stay compliant without spending lots of time and money?*

### Turn to PSC—

PSC's Mail Back program for batteries and light bulbs is designed to provide a simple, cost-effective program that is compliant with EPA, DOT and OSHA regulations. You collect batteries and bulbs from your business and place them in the specialized containers. When a container is full, simply apply a prepaid mailing label and send it via parcel delivery service for recycling.

**The Smart Way to Stay Compliant Incredibly Simple!** You call. We send you all the containers and prepaid mailing labels. You fill and ship them back at your convenience. It's that easy.

**Environmentally Responsible!** PSC is the nation's reuse and recycling innovator. Our Battery- and LitePack Services are both EPA- and DOT-compliant. Plus, we'll mail or fax you Certificates of Recycling.

**Call**—to order containers  
**Fill**—at your convenience  
**Ship**—with prepaid labels

**Cost-Effective!** Mailback recycling materials are inexpensive and require very little labor. No special packing or time-consuming trips offsite.

**PSC Delivers More Degrees of Green** Mailback services are just part of what makes PSC the nation's leader in smart end-to-end waste disposal programs. Our breadth of solutions is simply unrivaled. Talk to us about all your waste disposal and sustainability needs.
